

Covered coil wagon, Shimmns TTU

for the transportation of moisture-sensitive steel coils (sheet metal rolls)

Advantages

- High payloads on C-route (>60.4 t) and D-route (>68.0 t) due to low tare weight
- Easy and simple operation of the tarpaulin cover

Payload

Load limits

	A	B1	B2	C2	C3	C4	D2	D3	D4
S	38,7	38,7	50,5	55,5	60,5		55,5	65,1	68,5
120	00,0 t								

Tare weight 21,5 t +/- 1,5%

Dimensions and equipment

Length over buffers	12'040 mm
Axle base	8'800 mm
Distance between bogie centers	7000 mm
Number of fixing arms	20 Stk.
Max. Coil with	2'052 mm
Min. Coil with	352 mm

Technical data

Axle load	22,5 t
Bogie	Y25 Lsd-KP1
Brake	KE-GP-A (K)
Buffers	Kat. A

Operation

UIC-Profil	G1-TEN GE
Track gauge	1'435 mm
Smallest track curve radius Single wagon	35 m
